The projects which follow constitute a selection from a much larger number, but we have endeavored to include samples for each of grades seven to nine, inclusive. Space will permit us to present only one project for the senior high school. In our selection we have endeavored to include projects which enlist a variety of interests and which cover a number of subjects. These projects have been developed in the Extension Courses in the Project Method of Instruction. We feel that they will be of aid to New Jersey teachers in planning similar undertakings. We desire to express our thanks to the county superintendents, city superintendents, principals, and presidents of teachers organizations who have co-operated in the organization of our Extension Courses, and who by their untiring efforts have contributed so much to making them a success.
